

K-LOVE Radio station has been an inspiring, uplifting alternative to radio listening. It unifies a nation and send positive lyrics thst every age can listen to with a variety of music styles. I think the restriction of such a radio station would be censorship, and a major reduction in my access to radio stations that I am willing to listen to. I think those who want to condemn such a station, should take the time to listen. They would also be uplifted if they listen with an open mind. Please support the continuation of this station. Cathy and David Harris
